## TRUE DECADENCE

Ledbury Studio's Metallics kitchen collection, designed by founder Charlie Smallbone, forms a glamorous look here. Displaying a mix of metal surfaces and aged-brass accents, the cabinetry is paired with Marine Blue paint by Little Greene and luxurious-looking Bianco Macaubas Quartzite seen on the splashback and worktops. Kitchens from Ledbury Studio start from £50,000.

## TRAY CHIC

Showcasing the beautiful stone craftsmanship of Italian design brand Salvatori, these Pietra serving trays, designed by Piero Lissoni, are effortlessly stylish. Priced from £270.

## MAKE ROOM

Even large kitchen-dining spaces may need to fit a few extra guests in from time to time, but extendable tables can look a little clunky. Not so Bo Concept's Augusta dining table, priced at £3,839 as seen, which can be extended to seat 12 without this feature spoiling its sleek, lust-worthy design aesthetic.
