

#METALLICS

This latest design from Ledbury Studios Metallics Collection by founder Charlie Smallbone is rooted in its artful mixing of unusual materials. Sheet metals zinc and aged pewter are skilfully welded into a stainless steel frame, contrasting with painted grey units, while concave handles have been fashioned from stainless steel. Bianco Macaubas Quartzite has been worked into the mix along with a bespoke, antiqued pure silver leaf splashback. Kitchens from £50,000. ledburystudio.com
